RE: Annual Report for the Logan River Distribution System

Dear Mr. Crockett:

As you are aware, the annual meeting of the Logan River Distribution System was held on January 16, 1985. You were not present to give your commissioner's report and the water users did not receive a copy of the written report. It has been six weeks and we still have not received a report from you.

At the meeting the water users agreed to appoint Mr. Terry Gnehm as water commissioner for the period from April 1, 1985 through March 31, 1986. Appointment of a new commissioner does not relieve you of the responsibility of submitting an annual report.

Our records show you never gave a bond to the state pursuant to Section 73-5-2 of the Utah Code Annotated, 1953. Our records also show that we would owe you \$732.80 through the end of March. I have instructed the accountant in the Distribution Section to **WITHHOLD** any payments due to you until such time as you submit an adequate report.

If the report has not been submitted to us before March 31, 1985, we will return any money, which we owe you, to the Distribution Section. If you have any questions, contact Mr. Richard B. Hall of my office.

Sincerely yours,

Robert L. Morgan, P. E.
State Engineer
